Small Step Will Make A Big Change

About Our Company

Our Core Values

Sustainability:

A commitment to environmentally conscious production processes.

Social Responsibility:

Empowering the community and improving livelihoods.

Innovation:

Continuously developing advanced and efficient eco-friendly solutions.

Integrity:

Upholding ethical standards in all aspects of our business.

Our Mission Statement

Founded in 2018 by the visionary [REDACTED], Purunea Eco Straw was born out of her determination to address two critical global issues: environmental sustainability and community welfare. With an unwavering commitment to these values, Purunea Eco Straw produces high-quality, biodegradable straws as an eco-friendly alternative to traditional plastic straws.

Our Dream and Goals

Our Dream

To become a globally recognized leader in sustainable product innovation, inspiring individuals and businesses to prioritize environmental stewardship and social equity.

Our Goals

- To actively combat plastic pollution by offering high-quality, eco-friendly straws.
- To create meaningful social impact by providing job opportunities and skill development for the local workforce.
- To promote a culture of sustainability among consumers and partners worldwide.

Our Product

- **Materials:** Made from premium biodegradable materials, Purunea Eco Straws are designed to naturally decompose, leaving no harmful residue.
- **Design:** Available in various sizes and styles, our straws are crafted to suit the needs of diverse consumers, from casual users to high-end dining establishments.
- **Quality Assurance:** Every product undergoes rigorous testing to ensure it meets the highest standards of functionality, durability, and eco-friendliness.
- **Production Capacity:** With a current production capacity of 150,000 to 250,000 eco-straws per month, Purunea Eco Straw is positioned to meet the increasing global demand for sustainable alternatives. Our production processes emphasize efficiency and environmental protection, ensuring that every straw reflects our commitment to quality and sustainability.

Commitment to Community and Environment

Purunea Eco Straw is more than a business; it is a movement toward a better future. We actively engage with local communities, providing job opportunities, skill training, and support programs that enhance social well-being. This dual focus on environmental and social impact ensures that Purunea's success benefits not only the planet but also the people who call it home.

Future Goals

1. Expand production capacity to 500,000 pieces per month to meet growing demand.
2. Launch innovative eco-products beyond straws, contributing to a broader range of sustainable living solutions.
3. Partner with global organizations to amplify environmental awareness campaigns.
